

# BEWARE OF PHISHING EMAILS

## HELPFUL TIPS

- Never respond to requests for personal information via e-mail. Legitimate businesses will never ask for passwords, credit card numbers, or other personal information in an e-mail.
- Do not enter personal information in a pop-up screen.
- Do not click on any links listed in an e-mail message. Copy and paste the URL into your browser.
- Use anti-virus and anti-spyware software, as well as a firewall, and update them all regularly.
- Review credit card and bank account statements as soon as you receive them to check for unauthorized charges.
